

Raad es wie welken ballon nou vast hèt?

Voor ieder raadslid is er een ballon. Reken de som uit en trek een lijn tussen het raadslid en de ballon met de uitkomst van de som.

The image shows a green rounded rectangle containing five balloons with numbers and five council members with math problems. The balloons are: a blue balloon with the number 17, a yellow balloon with the number 18, a green balloon with the number 11, a pink balloon with the number 5, and an orange balloon with the number 14. The council members are: a woman on the left with the problem $20 - 6 =$, a man in the top center with the problem $8 + 9 =$, a man on the right with the problem $12 - 7 =$, a man in the bottom center with the problem $14 - 3 =$, and a man at the bottom with the problem $13 + 5 =$.
